About Us

- Serving the Southeast for over 50 years
- Headquarters located in Charlotte, North Carolina
- Branch Offices located in VA, NC, SC & GA
- 24 Hour Service
For 30 years, TIBA has provided innovative solutions for the parking market, resulting in reliable, user-friendly products that lower the price of initial acquisition and the cost of ongoing maintenance. TIBA has done this through a focus on software development, while continuing to enhance and support its reliable hardware platform.
About TIBA
Allow parkers to pay for their parking time with a mobile phone.

PARCS Equipment
PARCS systems allow parking owners and operators to control access to keep drivers safe and collect parking revenues.

Mobile Application
Monthly Parkers & Transient

Monthly Parker - uses a permit or credential to park on an ongoing basis.

Transient Parker - A parker who pays for parking on a short-term basis, typically daily or less.

HOW TO USE THE
Windshield & HangTags for AVI

It is imperative that these mounting instructions be followed to ensure proper performance of the tres900 reader. Failure to follow these instructions may result in poor performance.

Enter Garage Using AVI
Step 1: Apply Tag on Vehicle following the Mounting Instructions provided by ParkDurham
Step 2: Slowly Pull into Entry Lane
Step 3: AVI Tag is Read and the Gate will Open
Step 4: Push Assistance Button for Help
Step 5: Enter Facility

Exit Garage Using AVI
Step 1: Slowly Pull into Exit Lane
Step 2: AVI Tag is Read and the Gate will Open
Step 3: Push Assistance Button for Help
Step 4: Exit Facility

HOW TO USE VALIDATIONS AT THE PAY ON FOOT (POF) STATION

Step 1:
Validation sticker should be placed over the center of ticket in marked area.

Step 2:
Upon exiting insert validated ticket into POF to apply a discount to your parking

Step 3:
The discount will be taken off automatically and your remaining rate will be displayed to pay.

Step 4:
Pay the remaining rate in full to receive a receipt.

Step 5:
Take receipt to the exit verifier in lane to exit garage.
ParkBlue, a mobile based digital operator platform that allows owners and operators to launch mobile parking services to monthly parkers and transient drivers. ParkBlue features a complete mobile app for iOS and Android that allows drivers to register to the digital parking service, insert their payment details, locate, select and navigate to their preferred parking facility.
ParkBlue features a complete mobile app for IOS and Android that allows drivers to register to the digital parking service, insert their payment details, locate, select and navigate to their preferred parking facility. Using the app and the mobile phone’s Bluetooth functionality, drivers can enter and exit facilities, and pay through the app. Behind the scenes, a complete digital PARCS back-end manages the IoT BT devices that can be installed on any gate, regardless of the PARCS technology in the facility. The back-end also manages prices, provides parking insights, and manages registered drivers and payments.

Mobile Features
iOS (9 and up) and Android (5 and up) compliant
